## Education

### Sahyadri College of Engineering and Management

Bachelor of Engineering in Computer Science - **9.36 CGPA**

Dec 2022 – Jun 2026

Mangalore, Karnataka

### Poornaprajna PU College

Pre-University Education - Science (PCME) - **93.5 Percentage**

2020 – 2022

Udupi, Karnataka

## Projects

### DeepLock | Python, Flask, TensorFlow, React.js

Jun 2025

- Built an AI-powered platform leveraging **InceptionNet v3, CRNN, and ResNet-18** to detect **deepfakes**.
- Implemented a Flask-based backend with RESTful APIs and a component-driven React frontend to support interactive user access.
- Enabled model-specific handling of diverse media types, allowing isolated evaluation and real-time response visualization.

### QVista | MERN Stack, REST APIs, Git, Vercel

March 2025

- Engineered a full-stack queue system for **real-time position tracking and admin control**.
- Implemented dynamic queue operations including auto-refresh, rejoining, and no-show handling with status tracking (**waiting, called, not arrived, served**) using RESTful APIs.
- Built a responsive admin dashboard with analytics to monitor queue traffic and optimize service flow.

### Personal Expense Tracker Web App | MERN Stack, JWT Authentication, REST APIs, Recharts

July 2025

- Developed a secure full-stack expense tracking platform with **JWT-based authentication** and modular RESTful APIs for **CRUD** operations.
- Built a dynamic, responsive React.js frontend featuring real-time expense summaries, category-wise breakdowns, and interactive data visualizations using **Recharts**.
- Added timeline-based spending insights with filters for **daily, weekly, and monthly** analysis to help users track their expenses over time.

## Technical Skills

**Languages:** Java, HTML, CSS, JavaScript, SQL

**Developer Tools:** VS Code, Git, GitHub, Vercel

**Technologies/Frameworks:** React.js, Express.js, Flask, Node.js, MongoDB,

**Soft Skills:** Leadership, Problem-Solving, Team Collaboration, Effective Communication, Time Management

## Certifications

### Prompt Engineering & Programming with OpenAI - Columbia+

Completed: July 2025

### Deloitte Australia Data Analytics Job Simulation - Forage

Completed: March 2025

### Database and SQL - Infosys Springboard

Completed: February 2025

## Achievements

### 2nd Place in TechVision-2025

May 2025

Achieved second place in TechVision Event for the project **DeepLock** at the Department Level

SCEM

## Volunteer Experience

### Placement Volunteer

Assisted in organizing and coordinating over 10+ campus placement drives.

SCEM
